

The Eritrean Government has made an official request to the United Nations Security Council requesting it to set up an independent, transparent and accountable inquiry body to investigate the recent and previous provocative attacks perpetrated against Eritrea by the US administration.

In the official letter addressed to the Security Council and UN Secretary General dated 27th of March 2012, the Government of Eritrea underlined that “We hold the US Government responsible in this (the attack of 15th of March) and previous illegal attacks perpetrated against Eritrea, not for propaganda consumption, nor is this driven by far fetched inferences based on ‘conspiracy theories’. Our accusation is firmly rooted on hard facts and evidences. In this respect, we request the UN Security Council to form an independent, transparent and accountable inquiry body to investigate and ascertain the validity of our case so that it may take appropriate remedial measures.”
