

Service-rendering institutions put in place in Logo-Anseba through the coordinated endeavors of the people and the Government are bringing about commendable improvement in women's standard of living.

Logo-Anseba, 22 May 2010 - Service-rendering institutions put in place in Logo-Anseba through the coordinated endeavors of the people and the Government are bringing about commendable improvement in women's standard of living.

Mothers in the area stated that the expansion of various social services such as health, education, potable water supply, roads and other are making major contribution in upgrading their life style.

They further explained that they are now able to read and write as a result of the illiteracy eradication campaign, and added that the number of mother and child mortality rate during delivery has dramatically dropped.
