

More than 130 students graduated from the Asmara College of Health Science today in M.A, degree and diploma. The graduates include 8 in M.A., 124 in the First Degree and 4 in diploma.

Asmara, 24 July 2010 – More than 130 students graduated from the Asmara College of Health Science today in M.A, degree and

diploma. The graduates include 8 in M.A., 124 in the First Degree and 4 in diploma.

Speaking at the graduation ceremony, the Minister of Health, Ms. Amna Nurhusein, stated that the Government continues to exert unremitting efforts towards promoting the nation's human resource potentials, and thereby ensure social justice and economic emancipation. She further called on the graduates to live up to the nation's expectations.

The Dean of the College, Dr. Azeb Ogbagebriel, on her part noted that the College has registered impressive outcome in nurturing competent health professionals since its opening in 2005. She indicated that endeavors are being exerted to foster relations with reputed educational institutions abroad so as to ensure the academic competence of the College. Dr. Azeb pointed out that at present 1,382 students are pursuing various courses in the college.
