

Agricultural activities in Mogolo sub-zone, Gash-Barka region, are being carried out successfully according to Mr. Mohammed Hamid, the Administrator of the sub-zone.

Mogolo, 25 July 2010 – Agricultural activities in Mogolo sub-zone, Gash-Barka region, are being carried out successfully according to Mr. Mohammed Hamid, the Administrator of the sub-zone.

In an interview with ERINA, he disclosed that 1,200 hectares of farm lands have been ploughed through government tractors and the remaining through traditional methods beginning the end of June.

As regards rainfall, Mr. Mohammed said that there have been plenty rains this summer, particularly from July onwards.

Mr. Abdu Adem from the farming community in Habereda said that the tractors have carried out an effective task, and that they would make relentless efforts to augment their products as the expansion of rainfall this year is better than the previous two years.
