

The inhabitants of Gernfit – La’aly Gash sub-zone- express satisfaction with the opening of a health care center in their village as well as with the services it has so far provided.

La’aly Gash, 25 July 2010 – The inhabitants of Gernfit – La’aly Gash sub-zone- express satisfaction with the opening of a health care center in their village as well as with the services it has so far provided.

Pointing out that they used to face many health difficulties due lack of awareness, they said that they have shown improvement in their health condition in general and mother and child care in particular as a result of the health service they are obtaining.

The head of the health services in Gerenfit, Mr. Abraham Habtetsion, stated that the health center renders service to four administrative areas, and the prevalence of disease is declining with the provision of effective services.
