

The Administrator of Central region, Mr. Kahsai Gebrehiwot, called on agricultural experts to enhance their contribution in introducing modern agricultural techniques and raise productivity as part of the efforts to achieve food security. He made this statement in a meeting held from 10 to 11 August with agricultural experts, dairy farmers, branch heads and others.

Asmara, 12 August 2010 – The Administrator of Central region, Mr. Kahsai Gebrehiwot, called on agricultural experts to enhance their contribution in introducing modern agricultural techniques and raise productivity as part of the efforts to achieve food security. He made this statement in a meeting held from 10 to 11 August with agricultural experts, dairy farmers, branch heads and others.

Mr. Kahsai gave extensive briefings regarding provision of animal feed to improve the quality of milk production as well as livestock health.

Pointing out the importance of integration of dairy farmers in associations, he said that preparations to cultivate livestock feed through modern equipments have been finalized.

The Administrator further called on professionals in agricultural field to work in collaboration with farmers to raise agricultural output.
