

Endeavors on the part of the Eritrean Pharmaceutical Association towards applying effective use of medicines among the society are registering encouraging outcome.

Asmara, 9 September 2010 – Endeavors on the part of the Eritrean Pharmaceutical Association towards applying effective use of medicines among the society are registering encouraging outcome.

Mr. Seare Gebreyahannes, Chairman of the Association, explained that the Association has conducted study papers through organizing various seminars and scientific conferences. It also carried out campaigns aimed at creating conducive ground for exchange of information among staff members regarding the development of the medical profession, among others.

Mr. Seare further indicated that the proper application of medicines through undertaking campaigns has shown encouraging outcome

The Eritrean Pharmaceutical Association was formed in 1992 and it has over 200 members.
