

Harat Transport Company has introduced additional 54 new buses in Gash-Barka region with a view to easing transport problem and providing efficient service.

Barentu, 17 September 2010 - Harat Transport Company has introduced additional 54 new buses in Gash-Barka region with a view to easing transport problem and providing efficient service.

The newly introduced buses are fit to the weather condition in the region and are expected to play major role in alleviating transport problem.

The local inhabitants commended the initiatives taken by the company towards providing efficient and speedy service to the public. They further stressed their significance in facilitating the growing trading activities in the region and reminded that bus service of this type should be expanded in all transport lines.

Reports indicated that Haret Transport Company won broad acclaim on the part of the general public as it relieved them from the greedy private bus owners.

The Company has over 60 big and small buses in Gash-Barka that are rendering service on a daily basis.
