

Reports indicated that the inhabitants of Asuge Administrative area, Gogne sub-zone, have carried out popular undertaking as regards afforestation and environmental hygiene with a view to promoting community and environmental health. Gogne, 1 November 2012 – Reports indicated that the inhabitants of Asuge Administrative area, Gogne sub-zone, have carried out popular undertaking as regards afforestation and environmental hygiene with a view to promoting community and environmental health.

Among the participants, Suleiman Abubeker, Ibrahim Hadot and Mr. Afa Asenai explained that the sustainability of such initiative would also have a significant impact on combating desertification and maintaining the balance of biodiversity, and said that they would enhance their role to this end.

Mr. Mohammed Nasser, director of the school in Asuge village, commended the voluntary participation of students in the venture. He further expressed conviction that planting trees in honor of fallen heroes involves moral satisfaction, besides its visible impact on the environment.

Sheikh Mohammed Adem Daman called on the inhabitants to sustain follow-up on the planted tree seedlings.
