

The inhabitants of Shandashina village, Goluj sub-zone, lauded the outreach health service and community sensitization activities being conducted by the health center in the locality. They further indicated that such service has improved their livelihood significantly. Goluj, 15 November 2012 – The inhabitants of Shandashina village, Goluj sub-zone, lauded the outreach health service and community sensitization activities being conducted by the health center in the locality. They further indicated that such service has improved their livelihood significantly.

Among the inhabitants, Ms. Zahra Mohammed-Ali, Ms. Amna Isa, Mr. Ali Mohammed-Ali and Mr. Ali Kirib pointed out that the health center's roving crew is providing them with commendable service as regards child immunization and antenatal care. They also said that their awareness regarding various health issues has been raised.

Mr. Gilai Musazgi, head of the health center, praised the commitment and active participation of the staff members in such campaigns.
