

The educational materials and school fee they receive from the Ministry of Labor and Human Welfare has encouraged them not only to continue their education but also to become competitive, parents and students beneficiaries expressed. Asmara, 2 December 2012- The educational materials and school fee they receive from the Ministry of Labor and Human Welfare has encouraged them not only to continue their education but also to become competitive, parents and students beneficiaries expressed.

Report from the ministry indicates that the assistance being provided to beneficiaries includes educational materials, school uniforms as well as school fee.

The outcome of the assistance that is being provided annually to needy students is regularly evaluated for sustainability.
