

The inhabitants of Rikeb village, Anseba region, expressed satisfaction with health service. Among the inhabitants, Mr. Mohammed-Ali Osman, Ms. Hawa Ibrahim and Ms. Bekita Mohammed indicated that the health station there is well equipped, and commended the health personnel's commitment through whose active efforts community sensitization programs have resulted in positive impact vis-à-vis mother and child health. Sel'a, 25 December 2012 – The inhabitants of Rikeb village, Anseba region, expressed satisfaction with health service. Among the inhabitants, Mr. Mohammed-Ali Osman, Ms. Hawa Ibrahim and Ms. Bekita Mohammed indicated that the health station there is well equipped, and commended the health personnel's commitment through whose active efforts community sensitization programs have resulted in positive impact vis-à-vis mother and child health.

Mr. Zemenfes Gebrele'ul, head of the health station, pointed out that a program has been drawn up to put in place health stations in the surrounding Administrative areas of Tahira, Merbebayeb and Badin following the observation of growing number of visitors to the health station. Moreover, he disclosed that the community's awareness on various health issues is on the rise.
