

The inhabitants of Nacfa and Afabet sub-zones have lauded the development accomplishments being registered in both localities through joint endeavors by the people and the government.

Massawa, 28 December 2012 – The inhabitants of Nacfa and Afabet sub-zones have lauded the development accomplishments being registered in both localities through joint endeavors by the people and the government. They voiced their appreciation at the respective assessment meetings they conducted recently, during which they indicated that they are in a position to experience improvement of livelihood thanks to the various social service facilities equitably put in place in the two sub-zones.

The meetings further assessed that significant accomplishments have been registered as regards health, potable water supply, transportation, as well as soil and water conservation, and that impressive popular participation was witnessed in the process.

The participants on their part expressed readiness to practice judicious utilization of the available social service facilities.
