

The inhabitants of Ra village expressed satisfaction with potable water supply vis-à-vis the impact of community living in their livelihood.

Araeta, 4 January 2013 – The inhabitants of Ra village expressed satisfaction with potable water supply vis-à-vis the impact of community living in their livelihood.

Among the inhabitants, Mr. Ahmedin Hassen and Ms. Eiysha Mohammoda explained that the process of water fetching used to be awkward in the locality, which task has presently become a matter of short distance walk. They also asserted that their awareness pertaining to community-based style of living is on the rise.

Ra village, which is inhabited by 140 families, is located some 30 Km. north-west of Ti'o semi-urban center.
