

The inhabitants of Forto-Sawa sub-zone said that the health center in the locality is rendering commendable service, thus making significant impact regarding mother and child care as well as community sensitization.

Forto-Sawa, 9 January – The inhabitants of Forto-Sawa sub-zone said that the health center in the locality is rendering commendable service, thus making significant impact regarding mother and child care as well as community sensitization.

Among the inhabitants, Ms. Aisha Idris and Mr. Mohammed Haj expressed satisfaction with the service being rendered by the health center.

Mr. Haile Hayelom, head of the health center, explained that it has been exerting integrated endeavors in collaboration with the rest of health institutions in the locality with a view to raising community awareness as regards communicable diseases in general and malaria in particular. Moreover, he called on the inhabitants to enhance prudent utilization of the health facilities.
