

The provision of social service rendering institutions in various parts of Elabered sub-zone is playing a remarkable role in enhancing the livelihood of the inhabitants. Elabered, 13 June 2010 - The provision of social service rendering institutions in various parts of Elabered sub-zone is playing a remarkable role in enhancing the livelihood of the inhabitants.

In an interview with ERINA, the inhabitants of Elabered disclosed that encouraging accomplishments have been registered in the ensuring reliable transport, telephone, education, health and other services in the sub zone.

One of the inhabitants of the administrative districts of Adi- Berbere, Mr. Teklebrehan Tesfatsion pointed out that they have started to receive satisfactory services since they were resettled in organized villages.

The Administrator of the Elabered sub zone, Mr. Fitiwi Ghebremeskel stated that there are 34 schools ranging from kindergarten to secondary in the area. He also added that there is one communal hospital and four health centers.

Regarding the provision of electricity services, Mr. Fitwi noted that the administrative areas of Eden and Halib-Mentel have become beneficiaries of 24 hour electricity services, while the administrative areas of Debresina, Hadish-Adi and She'ib- Seleba will soon receive similar services. He also said that 80% of the inhabitants of the sub- zone obtainpotable water supply.
