

The Mendefera School of Associate Nurse has constructed a Ground +2 building complex at an expenditure of about 13 million Nakfa.

Mendefera, 1 October 2010 - The Mendefera School of Associate Nurse has constructed a Ground +2 building complex at an expenditure of about 13 million Nakfa.

The project being implemented through Haben Construction Company includes a modern cafeteria and assembly hall, as well as additional classrooms and other facilities. The Supervisor of the project, Mr. Goitom Tekleab, said that the construction of the building which is nearing finalization would make due contribution in alleviating shortage of such facility.

The director of the School, Mr. Yosef Zemichael, indicated on his part that previously there existed lack of an assembly hall that is required for offering seminars, briefings and lectures in connection with the teaching-learning process.

Haben is a national construction company which was established in 2004.
